STATE OF NEBRASKA EMERGENCY OPERATIONS PLAN

PREFACE

This State Emergency Operations Plan establishes the policies, plans, guidelines and procedures that will allow all our emergency resources to function effectively, as a team, when disaster strikes. In content and in format, the Plan is consistent with the current nationwide concept embodied in the Integrated Emergency Management System (IEMS) in that the Plan provides for performing specific functions across the full spectrum of hazards. Most tasks and capabilities apply across a broad range of hazards. By treating them in that manner we show an integrated approach to disaster management. Unique aspects of certain hazards are addressed separately, where necessary. Therefore, this is truly a multi-hazard functional plan.

The Plan is organized in a manner that enhances this functional approach by incorporating the following components:

1. Basic Plan: serves as an overview of Nebraska's approach to emergency management, assigns responsibilities, and defines broad policies, plans, and procedures.
2. Annexes: fifteen (15) functional Annexes that address the task areas for the Emergency Support Function (ESF) Coordinator deemed critical to emergency response and recovery.
3. Appendices: these sections support various Annexes and generally address unique hazard specific requirements or specific agency actions.
4. Tabs: where necessary, procedures or guidelines for carrying out specific tasks defined in Annexes or Appendices are contained in Tabs.
5. Attachments: Other supporting information is attached where needed (maps, lists, checklists, etc.).

STATE OF NEBRASKA

Mike Johanns
Governor

Office of the Governor
State Capitol

July 28, 2003

TO: Nebraska State Agencies

Under the authorities given to the Governor in the Nebraska Emergency Management Act, Reissue Revised Statutes of Nebraska Section 81-829.31, Sections 81-829.36 to 81-829.75, the State Emergency Operations Plan has been prepared to provide guidance, direction and control to state and local government to meet the dangers facing our state. The Nebraska Emergency Management Agency is responsible for general emergency planning and agency coordination in support of the State Emergency Operations Plan.

The Nebraska Emergency Management Agency Director has been designated to act as the State Disaster Coordinator.

Because we must be able to react and respond to the disaster needs of Nebraska and its citizens, I hereby request each state agency, department and office to become familiar with the State Plan and be prepared to fulfill the state agency responsibilities to the State of Nebraska.

A handwritten signature in black ink, appearing to read "Mike Johanns".

Mike Johanns
Governor

GLOSSARY OF TERMS AND ACRONYMS

Business Band Radio: Any commercial radio communications not otherwise specifically stated.

CEC - Community Emergency Coordinator: The single point of contact under SARA Title III for the community who makes determinations necessary to implement the plan.

CERCLA: Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (PL 96-510)

CHEMTREC - (1-800-424-9300) Chemical Transportation Emergency Center: Located in Washington, D.C., this facility, sponsored by the chemical industry, provides 24-hour assistance in dealing with chemical transportation emergencies.

Civil Defense Emergency: An emergency declared by the President of the United States or Congress pursuant to applicable federal law finding that an attack upon the United States has occurred or is anticipated and that national safety requires the invocation of the emergency authority provided for by federal law.

County Emergency Board (CEB): A group comprised of representatives from three USDA agencies, Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS), Cooperative Extension Service (CES).

Decontamination: The reduction or removal of contaminating radioactive, biological or chemical material from a structure, area, object, or person.

DEQ: Nebraska Department of Environmental Quality

Disaster - (Reference 81-829.39[3]): Occurrence or imminent threat of widespread or severe damage, injury or loss of life or property resulting from any natural or man-made cause, including, but not limited to fire, flood, earthquake, wind, storm, chemical spill, or other water contamination requiring emergency action to avert danger or damage, epidemic, air contamination, blight, drought, infestation, explosion, riot, civil disturbance, or hostile military or para-military action.

DRC - Disaster Recovery Center: A location established in a disaster area which houses all federal, state, and local agencies that deal directly with the needs of the individual survivor. DRCs are established only after a Presidential Declaration. Teleregistration will be available.

EAS - Emergency Alert System: The Emergency Alert System is composed of AM, FM and TV broadcast stations and non-government industry entities operating on a voluntary, organized basis during emergencies at the national, state, or operational levels.

Emergency: Any unplanned event that interrupts the daily function of the jurisdiction and requires an emergency response.

Emergency Worker: A person or persons who are primarily responsible for carrying out emergency functions. Emergency functions include radiological monitoring, firefighting services, law enforcement, medical and health services, rescue activities, area security, communications, evacuation measures, social services, and other related functions assigned by competent authority to protect the health, safety, and property of the general populace. Reference: RRS 81-829.55

EMS - Emergency Medical Services

EMT - Emergency Medical Technician: An individual who has completed the required training and is licensed by the State of Nebraska to perform emergency basic life support functions.

Emergency Protective Actions: Measures taken prior to or after a release of hazardous materials to prevent or minimize exposures to persons in the threatened area. Examples of emergency protective actions as discussed in this plan are area access control, evacuation, in-house shelter, decontamination, and respiratory protection.

EOC - Emergency Operation Center: A facility from which local government officials exercise direction and control in an emergency or disaster.

EOC Staff: Members of the emergency management organization tasked to operate the Emergency Operation Center during disasters.

EPA: Environmental Protection Agency (Federal Agency)

EPI - Emergency Public Information: Information concerning individual actions which will be made available to affected residents, transients, and evacuees in an emergency to ensure their safety and well-being.

ESF: Emergency Support Function

ESFC: Emergency Support Function Coordinator

Executive Group: Consists of the Chief Executives (Mayor, County Board Chairman, etc.) of the affected jurisdictions and/or their deputies.

Exercise: An activity designed to promote emergency preparedness; test or evaluate emergency operations plans, procedures, or facilities; train personnel in emergency response duties; and demonstrate operational capability.

FCO - Federal Coordinating Officer: The person appointed by the Associate Director, Federal Emergency Management Agency, who operates under the Regional Director, FEMA, to coordinate federal assistance in a major disaster.

FEC - Facilities Emergency Coordinator: The single point of contact under SARA Title III for a facility that reports extremely hazardous substances. This person will coordinate all activities of the facility in the event of a spill or release.

Federal Agency Disaster Designation: Certain federal agencies have programs under their own authorities which allow them to provide assistance without a Presidential Declaration.

Federal Response Plan (FRP): The Federal plan developed under Public Law 93-288 (Stafford Act) in order to facilitate the delivery of all types of Federal Response Assistance to States to help them deal with the consequence of significant disasters. Any response provided will supplement state and local response efforts. Requests for Federal assistance will be made by the State after an assessment of state and local ability to respond to the specific disaster.

FEMA - Federal Emergency Management Agency: The federal agency charged with development of an Integrated Emergency Management System and with supporting Emergency Management and Disaster Assistance efforts at all levels of government.

FSA: Farm Service Agency

Governor's Emergency Fund: A fund established by state law that may be expended, upon direction of the Governor, for any State of Emergency to supplement local efforts to maintain and/or promptly restore essential public facilities or services when threatened or damaged as a result of a natural disaster.

Governor's Proclamation - State of Emergency: The Governor has found that a disaster has occurred or that the occurrence or threat thereof is imminent within the state or any part thereof, and he has activated the disaster response and recovery aspects of state, local, and interjurisdictional plans for the purpose of aiding the affected individuals and local governments.

Hazard Analysis: The process of identifying the potential hazards that could affect the jurisdiction and determine the probable impact each of these hazards could have on people and property.

Hazard Area: A specified area directly affected by a disaster, or with high probability of being affected by specific hazards.

Hazard Mitigation: Measures which will eliminate or reduce the potential for damage to an area or facility from the effects of an emergency or disaster.

HazMat - Hazardous Materials: Substances which, if released in an uncontrolled manner (i.e., spilled), can be harmful to people, animals, property, and/or the environment.

ICS/IMS - Incident Command System/Incident Management System: The combination of facilities, equipment, personnel, procedures, and communications necessary to manage resources at the scene of an incident.

ICU: Intensive Care Unit

In-Place Shelter: Protective shelter action directed in the event of a short-term or low-level radioactive or toxic material release where evacuation actions could not be rapid enough to protect the affected population from an approaching hazard. Taking in-place shelter means staying indoors, closing all windows and openings to the outside air, and turning off all air conditioners or fans vented to the outside.

Ingestion Exposure Pathway EPZ (Nuclear Power Plants Incidents): An Emergency Planning Zone which refers to exposure primarily from ingestion of water or foods such as milk and fresh vegetables that have been contaminated with radiation. The duration of primary exposure could range from hours to months.

Key Personnel: Those officials of local government and other agencies and organizations who have primary functional responsibilities under this plan.

Local Emergency Planning Committee (LEPC): A local committee appointed by the State Emergency Response Commission (SERC) responsible for emergency planning and community right to know under SARA Title III.

MCI - Mass Casualty Incident: An incident, emergency, or disaster which generates sufficient casualties where:

- A. The number of patients and the nature of their injuries make the normal level of stabilization and care unachievable, or
- B. The number of Emergency Medical Technicians and ambulances that can be brought to the field within the time allowed is not enough, or
- C. The stabilization capabilities of the hospital are insufficient to handle all the patients.

(MRC/JIC)Media Release Center/Joint Information Center: Locally designated location for release of information to the general media for dissemination to the public.

MSDS: Material Safety Data Sheet

Mutual-Aid Agreements: Arrangements between organizations, either public or private, for reciprocal aid and assistance in case of emergency or disaster too great to be dealt with unassisted or when local resources are inadequate or exhausted.

NAWAS - National Warning System: A system of special telephone lines linking Nebraska with federal authorities in other states. A sub-network portion of the system, the State NAWAS Circuit, ties together state and local warning points as well as the National Weather Service, Nebraska State Patrol Stations, and nuclear power plants.

NCP - National Contingency Plan: Prepared by EPA to put into effect the response powers and responsibilities created by CERCLA.

NRT: National Response Team. (Consists of representatives of government agencies as the principal organization for implementing the NCP.)

Nuclear Incident: An occurrence in which nuclear materials with consequent nuclear radiation are uncontrollably released from containment. Synonymous with the terms "radiation spill" and "nuclear accident".

OSC - On Scene Coordinator: Federal official who directs Federal response under NCP.

OSHA: Occupational Safety and Health Administration (Federal Agency).

Presidential Emergency Declaration: Under PL 93-288, as amended by PL 100-707 this is issued when the President has decided that a catastrophe, in any part of the United States, requires federal emergency assistance to supplement state and local efforts to save lives and protect property, public health, and safety, or to avert or lessen the threat of a natural disaster which because of the pressure of time or because of the unique capabilities of a federal agency, assistance can be more readily provided by the federal government.

Presidential Major Disaster Declaration: Is issued when in the determination of the President, a catastrophe causes damage of sufficient severity and magnitude to warrant federal assistance under PL 93-288, as amended by PL 100-707, or subsequent legislation, above and beyond emergency services provided by the federal government to supplement the efforts and available resources of states, local governments, and other relief organizations in alleviating the damage, loss, hardship, or suffering as a result of the catastrophe.

Protective Shelter: Any shelter with the capability to protect individuals, animals, or equipment from the effects of hazards such as tornadoes, blast, fire, initial radiation, and fallout.

Radiological Emergency: A radiological incident/accident that requires immediate action to save lives, to protect public health, to preserve property, or to reduce or avoid an increase in the threat resulting from the incident/accident.

Radiological Monitoring: The use of detection equipment to determine the levels of radiation or the presence and concentration of radioactive contamination to include the planning and data collection necessary to the task.

Radiological Protection: The organized effort, through warning, detection, and preventive or remedial measures, to minimize the effect of nuclear radiation on people and resources.

REM - Radiation Equivalent in Man: A measure of the overall effectiveness of a radiation dose at causing a risk of cancer.

RRT - Regional Response Team: representatives of Federal agencies and a representative from each state in the Federal region. During a response to a major hazardous materials

incident involving transportation or a fixed facility, the OSC may request that the RRT be convened to provide advice or recommendations.

Rumor Control: A location where information requests from the public can be handled. Special Disaster Information telephone numbers may be published.

SARA: Superfund Amendments and Reauthorization Act of 1986. Contains Title III provisions for Hazardous Materials Emergency Planning and Community Right-to-Know.

SERC - State Emergency Response Commission: A commission, appointed by the governor to oversee LEPC's.

State Coordinating Officer (SCO): The person named by the Governor in the Federal-State Agreement to execute on behalf of the State all necessary documents for disaster assistance following the declaration of an emergency or major disaster, including certification of applications for public assistance.

State Radiation Team/Radiological Monitoring Team: Response team dispatched to the site of a radiological incident/accident by the Nebraska Health and Human Services System. This team(s) may be augmented by emergency management radiological monitoring resources, including aerial monitoring. At the scene, all radiation control activities are coordinated by the Health and Human Services System which also furnishes technical guidance and other services to local governments.

Superfund: The trust fund established under CERCLA to provide money the OSC can use during a clean-up.

Title III: The "Emergency Planning and Community Right-to-Know" portion of SARA. Specifies requirements for minimum plan content, for fixed facility owners to inform officials about extremely hazardous substances present at the facilities and for making information about extremely hazardous substances available to citizens.

Traffic Control Points: Places along evacuation routes that are either manned by law enforcement personnel or volunteers, or marked with barricades to direct and control movement to and from the area being evacuated.

Triage: A system of assigning priorities of medical treatment to the injured and/or ill on the basis of urgency, chance of survival, etc.

USDA: United States Department of Agriculture
